Company Profile

The Company

Biyela MM Geomatics (Pty) Ltd was established in August 2017 with a vision to establish a multi discipline surveying company in KZN. The company is a SMME specialising in Cadastral Surveys and Topographical Engineering Surveys with a level 2 BEE rating.

Directors

MM Biyela graduated from the University of KZN with a BSc degree in Land Surveying in 2013 and was registered with the SA Council of Geomatics in February 2016 as a Professional Land Surveyor and as a Sectional Title Practitioner in June 2016. Biyela holds 60% of the company shares

CSL Griffith is a registered Engineering Surveyor with the SA Council of Geomatics and has 50 years of experience in Topographical and Engineering Surveying. He has been in private Practise for 34 years in the Richards Bay area. Griffith holds 40% of the company shares.

Vision

We strive to become a leading geomatics company in KZN, upholding the professional ethics expected of surveyors in South Africa.

Mission

Our mission is to be part of land development and expansion of infrastructure while offering excellent service at competitive prices to our clients. In achieving this, we strive to empower local communities, especially the youth through job creation.
