

WHERE PRIORITIES MATTERS MOST

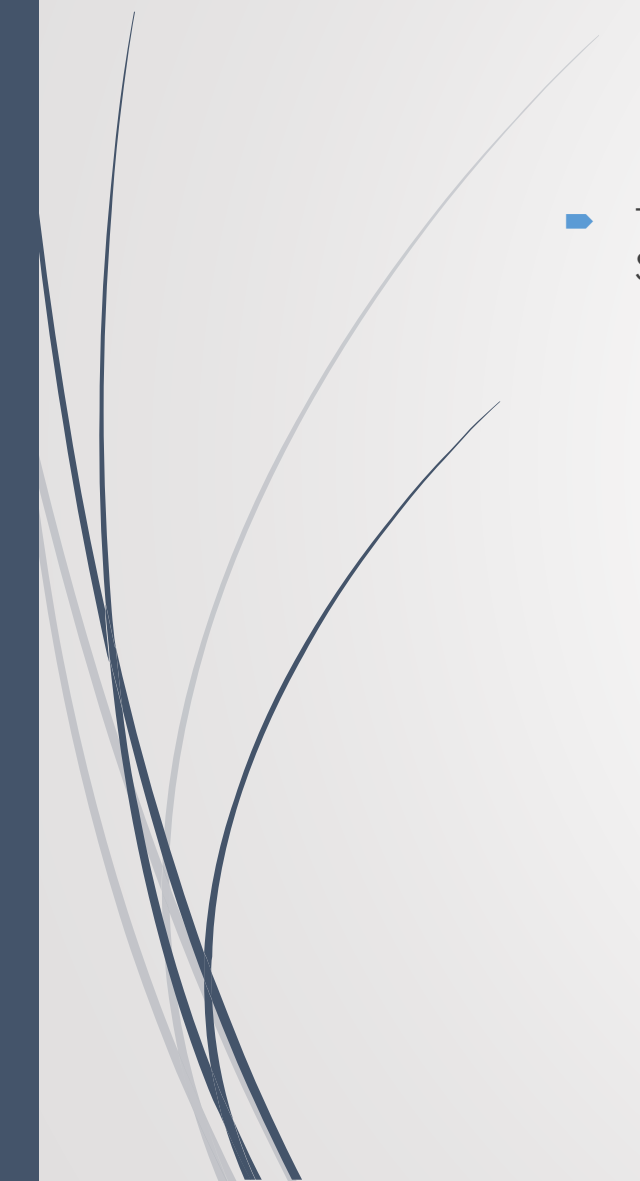

# INTRODUCTION

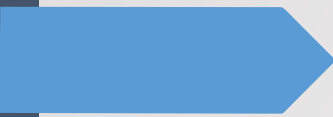

- ▶ DAY1CONNECT is a 100% black owned and managed company specializing on Occupational Health, Safety and Environmental management services, General Construction and other related services. The company was formed in 2017 and within six months it embarked on providing Occupational Health, Safety and Environmental Solutions for small and medium companies. As Day1connect, an upcoming formidable player in the field of construction safety, we realized that the construction industry needs a special attention and focus in promoting and facilitating safe work practices throughout the construction process/ stages. Hence, one of the reasons behind the formation of the company is to offer competent services to safeguard people, property and environment through systematic strategies.
- ▶ There are five primary benefits of aligning your organisation to Day1connect System:
- ▶ They:
  - Create good working conditions across your organisation
  - Identify hazards and enable you to put in controls to manage these hazards
  - Reduce workplace accidents and illnesses to cut related costs and downtime
  - Improve business credentials
  - Demonstrate compliance to customers and suppliers.

## VISION

- ▶ To be the leading company offering the best service and participation in Occupational Health, Safety and Environmental management services within Southern Africa.
